Units include:

RIICOM201E Communicate in the workplace

RIIWHS205E Control traffic with stop-slow bat

RIIWHS206 Control traffic with portable traffic control devices and temporary traffic signs

### Training Course (2 Days)

This is an introduction course for Students who will be responsible for traffic control on urban streets and low volume rural roads (Category 1). The training course includes knowledge training and assessment, practical experience and the South Australian Localised content training and assessment.

### Post Course – to be completed within 6 months

Students are required to complete the following in a Temporary Traffic Management workplace:

- TC1 - a minimum of **20 hours of practical experience** and record evidence in the log book provided.

Students can complete the practical experience in their own workplace environment on the relevant Category type roads. For Students who are not currently working, ATC will organise the practical placement with a Traffic Management Company approved by ATC.

### Practical Assessment (½ Day)

On completion of the practical experience and Log Book requirements, Students are required to successfully complete the Assessment on a live temporary traffic management site arranged by ATC. Students will be assessed on their traffic control skills using a Stop Slow Bat and Portable Traffic Control Devices.

Small Student groups hosted on a live ATC controlled TTM site, with separate ½ Day sessions scheduled to complete assessments.

Qualified TTM operators will be present to provide additional support and supervision to ensure a safe environment for the completion of individual assessments.

### Course Outcome and Award

On successful completion of the assessment, Students will be issued with:

- Statement of Attainment issued by ATC
- TTM card issued by DIT (Department for Infrastructure and Transport)
